

# LeakSys-II™

## Simplicity in Low Cost portable Leak detection

Flexible, Fast, Powerful, Reliable, Simple

The latest product in our range of quality assurance process instruments, LeakSys-II offers flexible high technology solutions at budget prices

Announcing the latest advance in Leak detection technology from ESS.

Building on our tradition of excellence in the process and quality assurance industries, ESS are proud to launch LeakSys-II.

This product offers a flexible, portable leak detection unit with no compromise on detection limits or speed.

Very simple controls and user interface get you working quickly with LeakSys-II

LeakSys-II gives you the performance specification and reliability you demand, at a price you want to pay

### Features

- MS Based technology ensures no false alarms
- Very short run-up times
- 10 user gases
- 3 Sensitivity Ranges
- Simple Push-Button operation
- Large, Bright-Display
- Built-in Audible warning
